

Envirologic Biodegradable Lithium Complex Grease 2

RC80235

Details

(Formerly 802 Biodegradable) This multi-purpose, Lithium complex, biodegradable NLGI #2 grease demonstrates excellent dropping point, water resistance, and structural stability designed to operate in severe outdoor environments where water resistance is paramount and withstand corrosion in high performance industrial applications. Excellent oxidation stability and EP/ antiwear protection. Temperature range from 400 degrees F to below freezing.

- Multi-use biodegradable grease
- Excellent dropping point
- Water resistance
- Structural stability
- Possess excellent oxidation stability
- Corrosion resistant
- Appropriate for a wide range of industrial and equipment applications

Specifications

Manufacturer	Envirologic
Weight (lbs)	35 lb
