

Underhill Pelletpro in-Line Applicator: 1in FHT Inlet - 1in MHT Outlet RGAPPQ-100

Details

Connect the PelletPro applicator directly to a water source, such as quick coupler or HoseTap, to take the weight off the hand-held nozzle for more comfortable usage on large turf areas. The applicator accepts all wetting agent tablets and provides a powerful, yet ultra-soft spray to apply surfactants to tight, hydrophobic soils. The PelletPro with Cloudburst nozzle attaches to the hose-end and applies droplets in a broad fan pattern. Pellet rotation at one revolution per second evenly dissolves the wetting agent tablet. Up to 48 GPM. 1in FHT inlet, 1in MHT outlet.

- PelletPro connects directly to a water source
- Up to 48 GPM to Get the Job Done Faster
- Eliminates handheld weight of the PelletPro
- Ultra Heavy-Duty Construction Brass Fittings, Aircraft Aluminum, Stainless Steel, Precision Engineered Glass
- Heavy-duty transparent plastic bowl
- Pellet Rotation 1 RPS Evenly Dissolves/Applies Tablets
- 48 GPM capability to get job done faster
- 1in FHT Inlet, 1in MHT Outlet
- 1" MHT
