

Direct Read Soil Ph/Moisture Meter R181

Details

Control soil acidity and moisture percentages with direct readings and decisions on when to add fertilizer and lime are simplified. This easy-to-operate meter gives on-the-spot results in 3 minutes on an easy-to-read dial with accurate pH readings from 3.5 to 8.0 and water moisture from 0% - 100%. Measures by natural electrical charge from the soil through the metal side plates on the tester. Readings are accurate to +/-0.2 for acidity and +/-10% on moisture readings. No batteries required. No maintenance. Durable Instructions, Lime Guide and carrying case included. 6-1/2" long.

- Accurate pH readings from 3.5 to 8.0
- Water moisture from 0% - 100%
- No batteries required
- No maintenance
- Instructions and carrying case included
